PROFESSIONAL SUMMARY

UX/UI Designer with 3+ years of experience designing scalable digital products across EdTech, SaaS, and non-profit sectors, including web, responsive, and native mobile app design (iOS/Android). Experienced in owning products endto-end — from research and information architecture through wireframing, prototyping, design systems, and developer handoff. Led the design of a 140+ screen multirole career guidance platform serving Students, Counsellors, School Administrators, and Platform Administrators, with full bilingual (English/Arabic) and RTL support. Passionate about simplifying complex workflows into intuitive, accessible experiences, and leverages an AI-design workflow to accelerate delivery without compromising craft.

PROFESSIONAL EXPERIENCE

Freelance UX/UI Designer

Aug 2025 – Present

Riyazdesigns, Vadodara

- Delivered independent UX/UI projects across EdTech and non-profit sectors, including a 140+ screen bilingual SaaS platform (see Core Projects).
- Owned research, wireframing, prototyping, design systems, and developer handoff independently on every engagement.
- Worked at startup pace, delivering full platform redesigns and new product builds in 1–3 month engagements.

UX/UI Designer

Apr 2024 – Jul 2025

Thatha Business Development LLP, Bengaluru, Karnataka

- Designed 20+ websites and landing pages for US-based non-profit organizations focused on fundraising, volunteer recruitment, and community engagement campaigns.
- Created style guides and reusable design guidelines that improved branding consistency across multiple client projects.
- Produced user flows, wireframes, prototypes, and sitemaps to improve stakeholder communication and development efficiency for complex user flows.
- Designed annual impact reports and donor-facing materials that translated complex program data into clear visual narratives

UX/UI Designer & Graphic Designer

June 2023-March 2024

CareerNaksha, Vadodara, Gujarat

- Redesigned the company website (Homepage, About Us, Psychometric Test, Blog) to improve usability, visual consistency, and user engagement.
- Designed multi-role dashboards for Students, Professionals, Admins, and Counsellors as part of a full-platform redesign
- Designed a fully native Android app UI end-to-end, extending the platform experience to mobile.
- Conducted competitive research and incorporated user feedback into iterative product improvements.
- Designed responsive, accessible interfaces in close collaboration with developers, marketers, and stakeholders.

CORE PROJECTS

CareerLogica — Multi-Role Career Guidance Platform

See Case Study ↗ Mar 2026 – Jun 2026

Freelance UX Designer · *UAE/South Asian Education Market*

- Architected information architecture, navigation structure, and user journeys for 4 distinct roles (Students, Counsellors, School Administrators, Platform Administrators) across a 140+ screen product.
- Built a scalable English/Arabic design system with reusable components, design tokens, and typography, including full RTL support.
- Built a scalable English/Arabic design system with reusable components, design tokens, typography (Outfit, Cairo/Tajawal), and complete RTL support.
- Designed onboarding, authentication, appointment scheduling, psychometric assessments, dashboards, and the product marketing website.
- Designed responsive desktop and mobile experiences optimized for complex, data-heavy workflows.

PECUC Website Redesign

See Case Study ↗ Dec 2025 – Jan 2026

Freelance UX Designer · *Non-Profit Sector (PECUC.org)*

- Redesigned a 12-page nonprofit website end-to-end, cutting navigation from 16+ items to 7 and reducing clicks-to-content from 4 to 2.
- Built a complete visual design Guide (color, typography, components etc.) for a 35-year-old NGO, replacing an unstyled legacy site across 12+ page templates.
- Designed donor and volunteer conversion funnels from scratch, including a tiered donation calculator and multi-step signup flow.
- Created a reusable card-based component system and consolidated 9 disconnected sub-sites into a single filterable Resources hub.

ATRC STEM Career Test Flow

See Case Study ↗ September 2025

Freelance Product Designer · *Advance Technology Research Council ATRC, UAE*

- Designed the complete UX for an interactive STEM career assessment platform for UAE students, from testtaking experience through results presentation.
- Simplified complex assessment logic into an intuitive, low-friction testing experience.
- Created wireframes, prototypes, and production-ready high-fidelity interfaces in Figma.
- Designed responsive layouts ensuring a seamless experience across devices.
